**Letter of support for Project Team "Aging At Home, Seniors Cooperative",  
Pouch Cove, NL**

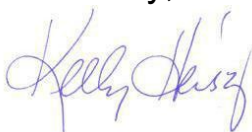

To Whom It May Concern:

As per our mission, SeniorsNL supports, promotes and enhances the well-being and independence of all older adults throughout the province of Newfoundland and Labrador. Our mandate includes facilitating the development and implementation of programs in line with that mission.

"Aging at Home" aims at supporting older adults to successfully "age in their homes and communities" in Pouch Cove and neighbouring communities. As such, they work on enhancing and coordinating the services already available to the senior's community in this area. This clearly is in line with SeniorNL's vision, mission, and mandate. Hence, SeniorsNL strongly supports the application of "Aging At Home" - Thomas Mengel and project team – for funding and support in its endeavour to form and implement a Seniors Co-operative.

SeniorsNL is prepared to participate in this exciting project in anyway agreed by the Project Team to ensure its success.

Sincerely,

Kelly Heisz  
Executive Director
