

TOWN OF POUCH COVE

February 5, 2024

Letter of support for Project Team "Aging At Home, Seniors Cooperative"

To Whom It May Concern:

The Town of Pouch Cove as a town, prides itself on its diverse and active population of seniors and older adults. From volunteerism to community leadership, seniors are pivotal to the success of our community. As such, as a Town Council, we enthusiastically support any initiatives to make the community even more accessible and livable for older adults and seniors.

We have discussed the proposed efforts brought forward by Thomas Mengel and his fellow committee members regarding "Aging at Home, Seniors Cooperative" and think this would be a wonderful addition to our community. We wish the organizers every success in their efforts to attract external funding for this project.

Please consider this letter our formal support for this project and for the committee in their efforts to receive financial support from granting agencies. We look forward to future collaboration with "Aging at Home, Seniors Cooperative" as it develops.

Sincerely,

Mark Vardy,
Mayor of the Town of Pouch Cove
